We want to make sure this event benefits the entire Bronte community—especially local businesses."

The Vision:

The Community Angle:

"We're Bronte residents and Bronte Runners Club founding members. This event comes from the community, for the community. We're supporting Oakville Dads Charity, showcasing our beautiful waterfront, and bringing people together. The BIA's support helps us amplify that community impact."

Key Messages to Emphasize

1. This Benefits Bronte Businesses

"We're bringing 800+ participants plus thousands of visitors to Bronte on a Sunday. These are active, affluent families who will be here all day. Local restaurants, cafes, shops—they all benefit from this foot traffic."

2. Ground Floor Opportunity

"This is year one. The businesses that get involved now will be founding partners of what we believe will become an annual Bronte tradition. That's valuable long-term positioning."

3. Affordable Entry Points

"We've designed this to be accessible. A vendor booth is \$250. A swag bag sponsorship is \$250. We want local businesses to participate without huge financial barriers."

4. Community-Driven

"This isn't an outside organization coming in. We're Bronte residents, Bronte Runners Club members, and we're doing this because we love this community. The BIA's support helps ensure it truly benefits everyone in Bronte."

5. Town-Endorsed

"The Town of Oakville is fully supportive and specifically recommended we partner with the BIA. They see this as important for the community and the business district."

Potential Objections & Responses

Objection: *"We have limited marketing capacity"*

Response: *"We completely understand. We're not asking you to do heavy lifting—even just sharing our posts on social media and allowing us to post on the gazebo board would be incredibly valuable. Anything beyond that is a bonus."*

Objection: *"BIA members might not see value in a running event"*

Response:*"This is actually a full-day family festival, not just a race. The race ends by 9:30 AM, then thousands of families are at the waterfront all day. It's about community celebration on Father's Day—and that benefits restaurants, cafes, shops, and family-oriented businesses."*

Objection: *"Too close to event date to promote effectively"*

Response:*"We're actually 4 months out, which gives us good lead time. Most race registrations happen in the final 6-8 weeks anyway. And for vendors and sponsors, businesses often make decisions on shorter timelines. The timing works."*

Objection: *"What if the event doesn't succeed in year one?"*

Response:*"We're being realistic and conservative with year one expectations. Even if we hit 500 participants instead of 800, that's still significant for an inaugural event. And we're committed to growing it year over year. Early BIA support helps ensure success."*

Objection: *"BIA budget constraints for partnership"*

Response:*"We're not asking for financial contribution from the BIA. The most valuable support you can provide is promotional—social media, business connections, and community outreach. Those don't have budget impact but have huge value for us."*
