

Meeting Minutes: Bronte Harbour Classic 5K Planning Meeting

Town of Oakville Coordination Meeting

Date: February 4, 2026

Meeting Type: Virtual (Video Conference)

Duration: Approximately 45 minutes

Attendees

Town of Oakville Staff:

- **Anna Rookyard** - Special Event Coordinator, Town of Oakville
- **Audrey Basham** - Roads Team, Town of Oakville
- **Lisa** - (Position not specified)

Event Organizers (TapeGeeks/Bronte Harbour Classic):

- **Greg Kowalczyk** - Event Organizer
- **Charles** - Event Organizer
- **Greg Pace** - Event Organizer

Meeting Overview

This was a coordination meeting to bring Anna Rookyard up to speed on the Bronte Harbour Classic 5K planning and to establish next steps for permitting and event logistics with the Town of Oakville.

1. Event Status Update

Current Status:

- **Event Date Confirmed:** June 21, 2026
- **Registration:** Approximately 80 participants signed up to date
- **Previous Approval:** Event received go-ahead in October 2025 (before Toronto Marathon Expo)
- **Planning Progress:** Working on sponsorships, marketing, and organization

Event Scope:

- **Primary Event:** 5K race for adults and 1K race for children
- **Additional Components:**
 - Vendor expo (approximately 30+ vendors expected)
 - Father's Day celebration
 - Live music performance
 - Children's activities (including jumping castles)
- **Event Duration:** Full day event from approximately 7:00 AM - 3:00 PM
- **Race Timing:** Start at 8:00 AM, finish by approximately 9:30 AM

2. Route Planning and Road Closures

Proposed Route:

- **Start Location:** Bronte Heritage Waterfront Park (intersection of Jones and Ontario Street, near gazebo)
- **Route Description:**
 - East on Ontario Street
 - Marine Drive towards Coronation Park
 - Loop around Coronation Park (using East Parking Lot area by the lake)
 - Return via Lakeshore Road
 - Back onto Marine Drive to Jones Street
 - South into Bronte Heritage Park (finish)

Road Closure Requirements:

- **Ontario Street:** Full closure from Jones to Marine Drive
- **Marine Drive:** Running lane only (not full closure)
- **Lakeshore Road:** Southbound lane only from Belvedere to East Parking Lot

Start/Finish Line Configuration:

- **Start Line:** Intersection of Ontario and Nelson Streets
- **Finish Line:** Jones Street heading south (Jones and Ontario intersection)
- **Distance Between Start/Finish:** Approximately 400 meters apart (due to route measurement requirements)

Route Modifications from Original Plan:

- Original plan included loop around condo complex on Bronte Road
- Revised to avoid Bronte Road blockages as requested by town
- Larger loop inside Coronation Park utilizing lakeside path and East Parking Lot

3. Construction Concerns - Coronation Park

Issue Identified:

- Planned construction at Coronation Park scheduled to begin (timing not yet finalized)
- Construction is relatively new information for town staff
- Project has not yet been tendered

Potential Impact:

- Construction may affect road access and/or park areas
- Two-phase approach: roadway construction likely before park construction
- Concentrated towards parking lot area on far side of park
- Vast majority of park should remain accessible

Status:

- Audrey to review route against construction plans once received
- Town will provide updates as construction timeline solidifies
- Route modifications may be required depending on construction phasing
- Decision to be made collaboratively if adjustments needed

4. Traffic Control Plan

Vendor:

- **Traffic Control Vendor:** RaceKit Services

Timeline and Requirements:

- Draft traffic control plan to be completed and submitted by early next week
- Town (Audrey) to review and provide feedback
- Detailed spreadsheet being prepared by Greg Pace including:

- Every driveway along route
- Every parking lot
- Volunteer placement positions

Insurance Requirements for Traffic Vendor:

- Certificate of insurance required from RaceKit Services
- \$5,000,000 Commercial General Liability
- Must name Corporation of Town of Oakville as additionally insured
- Anna to provide exact insurance requirement specifications via email

5. Park Setup - Bronte Heritage Waterfront Park

Overall Setup Vision:

- Entire park to be utilized as "big party celebration"
- Multiple activity zones throughout park
- Father's Day themed celebration atmosphere

Key Setup Elements:

Start/Finish Infrastructure:

- Physical start line and finish line structures
- Archways or similar installations expected
- Registration/check-in area near gazebo (park heartland)

Performance Area:

- Live music staged at amphitheater area (under the sails structure)
- Local musicians and bands planned
- Amplified sound to be directed towards lake (away from Ontario Street residences)
- Sails structure equipped with existing hydro access for sound equipment

Vendor Area:

- Approximately 30+ vendor booths expected (potentially more)
- Mix of vendor types planned
- Food vendors to be included
- Pop-up tents required for most vendors

Children's Activity Zone:

- Jumping castles/inflatables planned
- Family-friendly activities for Father's Day celebration

Site Map Requirements:

- Organizers to create and submit site map showing proposed layout
- Can be hand-drawn, computer-generated, or any format in between
- Google images screenshot acceptable as base map
- Town can provide blank park map template
- Town will review and provide recommendations based on:
 - Infrastructure considerations
 - Load-in/load-out logistics
 - Turf protection requirements
 - Traffic flow and safety

6. Noise Bylaws and Amplified Sound

Event Needs:

- Amplified sound required from 7:00 AM onwards
- Live music performance throughout the day until 3:00 PM
- Sound system for race announcements and event coordination

Noise Bylaw Considerations:

- Standard noise bylaw may restrict amplified sound before 7:00 AM or 8:00 AM (to be confirmed)
- Two pathways for noise exemption:
 - **Noise Exemption Permit** from Municipal Enforcement Services (MES)
 - **Special Event Permit Exemption** granted by Director of Parks and Open Spaces

Recommended Approach:

- Noise exemption to be written into Special Event Permit conditions
- Granted on authority of Director of Parks and Open Spaces (most likely pathway)
- Anna to confirm exact bylaw timings and provide details via email
- Anna to outline standard conditions for noise exemptions including:
 - Permitted decibel levels

- Duration restrictions
- Directional requirements

Sound Placement Requirements:

- Amplified sound must be positioned away from Ontario Street residences
- Speakers to be directed towards lake
- Town is very cautious about sound placement in Bronte Heritage Waterfront Park

7. Hydro and Stage Requirements

Hydro Access:

- Significant hydro access available throughout Bronte Heritage Waterfront Park
- Sails structure (amphitheater) fitted with hydro access for microphones and amplifiers
- Additional hydro can be provided for stage setup in green space areas if needed
- Hydro access can be added to permit (fees to be outlined in email)

Stage Options:

- **Option 1:** Use existing sails structure (no additional stage needed)
- **Option 2:** Town of Oakville stage rental (fees to be provided)
- **Option 3:** Organizers source their own stage from sponsor or separate vendor
- **Option 4:** Performance directly in front of sails structure (no elevated stage)

Decision:

- Optional service - organizers to decide based on budget and sponsor opportunities
- Many events successfully operate without dedicated stage

8. Vendor Requirements and Regulations

Food Vendors - Specific Requirements:

Business Licensing (Mandatory):

- All food vendors must have valid Town of Oakville business license
- Licenses obtained through Municipal Enforcement Services

- **Recommended:** Engage vendors who already have Oakville licensing
- **Alternative:** Vendors from other municipalities (Toronto, Mississauga, etc.) can obtain:
 - Temporary license specific to this event
 - Reduced cost compared to annual license

Health Regulations:

- All food vendors must comply with Halton Region Public Health requirements
- Town to provide details on health requirements via email

Food Vendor Insurance:

- Certificate of insurance required to obtain business license
- Handled through licensing process with Municipal Enforcement

Non-Food Vendors:

- Town of Oakville business licensing NOT required
- Vendors can showcase and sell products without local licensing
- Examples: Running shoes, athletic gear, wellness products, etc.

Vendor Insurance - General:

- Organizers have choice for non-food vendor insurance:
 - **Option 1:** Organizers add all vendors to their own certificate of insurance
 - **Option 2:** Require each vendor to provide individual certificate of insurance
- Recommendation: Organizers should decide their liability risk management approach

9. Inflatables and Children's Activities

Requirements for Inflatable Vendors:

Insurance Requirements:

- Certificate of insurance: \$5,000,000 Commercial General Liability
- Must name Town of Oakville as additionally insured
- TSSA (Technical Standards and Safety Authority) certificates required

Installation Requirements:

- **NO STAKING PERMITTED** - Critical requirement

- All inflatables must be weighted down using:
- Sandbags
- Proprietary inflatable weights
- Other approved weighting systems
- Organizers must notify rental company in advance about no-staking policy

General Note:

- Anna to provide detailed requirements via email for organizers to share with inflatable vendors

10. Tent and Installation Regulations

General Staking Policy:

- **Town of Oakville does NOT permit any staking into park grounds**
- Applies to ALL installations: tents, inflatables, structures, vendor booths

Tent Requirements by Size:

Small Pop-Up Tents (10' x 10'):

- Must be weighted down
- Acceptable weighting methods:
- Commercial tent weights
- Sandbags
- Other secure weighting systems

Large Tents (20' x 20' and larger):

- Concrete weights required
- Building permits required
- **Recommendation:** Avoid large tents if possible to reduce complexity and permitting requirements

Vendor Booth Setup:

- All vendor stands/tents must be weighted (no staking)
- Each vendor responsible for proper weighting of their setup

11. Insurance Requirements Summary

Event Organizers:

- Certificate of insurance required
- \$5,000,000 Commercial General Liability
- Must name Corporation of Town of Oakville as additionally insured
- Anna to provide exact specification requirements via email

Traffic Control Vendor (RaceKit Services):

- Certificate of insurance required
- \$5,000,000 Commercial General Liability
- Must name Corporation of Town of Oakville as additionally insured

Inflatable Vendors:

- Certificate of insurance required
- \$5,000,000 Commercial General Liability
- Must name Town of Oakville as additionally insured
- TSSA certificates required

Food Vendors:

- Certificate of insurance required as part of business licensing process
- Handled through Municipal Enforcement licensing requirements

Other Vendors (Non-Food):

- At organizers' discretion
- Can be covered under organizers' policy OR
- Can require individual vendor certificates

12. Load-In and Load-Out Considerations***Vehicle Access to Park:***

- Town cautious about turf damage from vehicles
- Limited vehicle access to grass areas permitted

Planning Required:

- Once site map submitted, Lisa and Anna will outline:
- Approved vehicle access routes
- Areas where walking/carrying is required vs. vehicle delivery permitted
- Load-in timing and procedures
- Load-out procedures

Objective:

- Minimize turf damage while facilitating reasonable setup logistics
- Specific guidelines to be provided after site map review

13. Resident Notification Requirements***Requirement:***

- Mandatory notification to affected residents within road closure areas
- Beneficial to notify all residents along race route

Notification Scope:

- Audrey to specify exact notification areas once route is finalized
- Must include all residents directly impacted by road closures
- Recommended to include all residents along race route

Notification Process:***Content Approval:***

- Organizers to draft notification letter
- Submit draft to town for review BEFORE distribution
- Town will review for accuracy and may request additions

Distribution Methods (Organizer's Choice):

- Professional distribution service
- Hand delivery by organizers/volunteers
- Canada Post mail delivery
- Postal walk distribution

Cost:

- Notification distribution is responsibility and cost of organizers
- Town requires confirmation that notifications were delivered but does not cover costs
- (Note: Greg Pace mentioned City of Burlington covers this cost for their events)

14. Marketing and Promotional Support

Visit Oakville Event Calendar:

- Primary marketing platform provided by Town
- Well-maintained event calendar
- Direct link from Town of Oakville website to calendar
- Anna to provide online application form to add event to calendar

Town of Oakville Website:

- Events section links to Visit Oakville calendar
- Provides community exposure for event

Bronte BIA (Business Improvement Area):

- **Strongly recommended** for organizers to engage with
- Event takes place within Bronte BIA area
- Town will inform BIA that event is happening (courtesy notification)

BIA Benefits:

- Great social media channels and community outreach
- Platform for event promotion
- Opportunity to engage local businesses
- Can provide additional promotional support

Status:

- Organizers already have meeting scheduled with Bronte BIA for next week
- Will meet with Kylie (BIA representative)

Other BIA Recommendations:

- Consider engaging with all Oakville BIAs for broader reach
- Each BIA may have unique promotional suggestions and opportunities

15. Signage and Banner Permits

Cross-Road Banners:

Available Locations:

- **Location 1:** 3122 Lakeshore Road (near Cudmore Garden Center area)
- **Location 2:** 439 Lakeshore Road (Gloucester - East Side of Downtown BIA)
- **Location 3:** Trafalgar Road (north of Georgia Square)

Organizer Request:

- Two banners over Lakeshore Road
- One on East Side of Bronte
- One on West Side of Bronte

Status:

- Cross-road banners haven't been requested in Bronte area in quite some time
- Separate permits required for each banner location
- Audrey to provide application forms and fee schedule
- Anna to compile into comprehensive information package

Community Notice Boards:

Board at Gazebo (Bronte Heritage Waterfront Park):

- Operated by Bronte BIA (not Town of Oakville)
- Organizers to discuss with Kylie at upcoming BIA meeting

Board at Foresters Park:

- Located in Kerr Village BIA area
- Believed to be operated by Kerr Village BIA
- Organizers can reach out to Kerr Village BIA if interested

Town-Operated Promotional Opportunities:

- Limited to Visit Oakville virtual event calendar
- No physical town-operated community boards beyond BIA partnerships

16. Event Size and Scalability Considerations

Organizer Question:

- Any limits on number of vendors?
- Current estimate: 30+ vendors

Town Response - Factors to Consider:

Physical Capacity:

- Park can only accommodate certain number of vendors, tents, and activities
- Must factor in multiple zones:
 - Performance/music area
 - Start/finish line congregation areas
 - Food vendor placement
 - Kids' activity zones
 - General vendor areas

First Year Event Considerations:

- Recommended to keep scalable for year one
- Better to plan conservatively and grow in future years
- Allows for:
 - Testing of plan
 - Assessment of success
 - Learning what works and what doesn't
 - Building on success in subsequent years

Organizational Complexity:

- More vendors = more complicated logistics
- Load-in/load-out becomes more complex
- Coordination requirements increase

Town Recommendation:

- Keep it manageable and scalable for first year
- Focus on success rather than maximum size
- Allow room for growth in future years
- Final number dependent on site map review

17. Permitting Timeline and Next Steps

Immediate Next Steps (This Week):

From Organizers:

1. **Submit revised race route map** to Town (Lisa/Anna)
 1. Status: Greg Pace sent map and detailed spreadsheet to Lisa during meeting
 1. Spreadsheet includes every driveway, parking lot, and volunteer position
1. **Submit traffic control plan from RaceKit Services**
 1. Expected completion: Early next week
 1. To be reviewed by Audrey (Roads team)

From Town:

1. **Anna to send comprehensive email by end of week** including:
 1. Summary of meeting discussion
 1. Breakdown of all insurance requirements with specifications
 1. Fee schedule (mandatory vs. optional fees)
 1. Noise bylaw information and exemption process
 1. Food vendor licensing requirements
 1. Halton Region public health requirements
 1. Inflatable vendor requirements
 1. Visit Oakville event calendar application
 1. Blank park map for site planning
1. **Audrey to provide:**
 1. Cross-road banner permit applications
 1. Banner permit fee schedule
 1. Confirmation of resident notification areas (once route reviewed)
1. **Audrey to review:**
 1. Submitted race route against planned construction

1. Traffic control plan when submitted
1. Provide feedback and any required modifications

Mid-Term Timeline:

Organizers to Complete:

1. **Site map creation** showing:
 1. Vendor placement
 1. Stage/performance area
 1. Start/finish line locations
 1. Kids' activity zones
 1. Food vendor areas
 1. Registration/check-in area
 1. Any other installations
1. **Obtain and submit insurance certificates:**
 1. Event organizer certificate
 1. Traffic control vendor certificate (RaceKit Services)
 1. Inflatable vendor certificates (when vendors confirmed)
1. **Finalize vendor list:**
 1. Ensure food vendors understand licensing requirements
 1. Confirm insurance arrangements for all vendors
 1. Share town requirements with all vendors
1. **Prepare resident notification:**
 1. Draft notification letter
 1. Submit to town for review
 1. Plan distribution method
1. **Complete Visit Oakville event calendar application**

Next Meeting:

- **Timing:** End of February or very early March 2026
- **Purpose:**
 - Review all submitted materials
 - Address construction impact (if any)
 - Confirm all requirements met
 - Outline any remaining permit conditions
- **Goal:** Be in strong position to finalize permits by early March

Permit Finalization Target:

- By March 2026: Move into final permitting phase
- All logistics confirmed
- All documentation received and approved

18. Construction Impact - Action Items

Town Responsibilities:

1. Audrey to obtain detailed construction timeline and scope
1. Review construction plans against proposed race route
1. Determine if/how construction impacts event
1. Communicate findings to organizers as soon as information available

Current Assessment:

- Construction is staged (road work likely before park work)
- Road construction shouldn't significantly impact route
- Park construction concentrated on far parking lot area
- Timing uncertainty is main concern

Best Case Scenario:

- Lakeshore Road work completed before event
- Park work not yet started or contained to far section
- Race can proceed around any fenced construction areas

Contingency Planning:

- If impact identified, collaborative route modification discussions
- Town committed to working with organizers to find solutions
- Communication as soon as more details known

19. Key Permits and Applications Summary

Required Permits/Applications:

1. **Special Event Permit** (Primary - Town of Oakville)
 1. Includes noise exemption conditions
 1. Covers park usage
 1. Anna Rookyard coordinating
1. **Road Closure Permit** (Roads Department)
 1. Requires traffic control plan
 1. Requires insurance from traffic vendor
 1. Requires resident notifications
 1. Audrey Basham coordinating
1. **Food Vendor Business Licenses** (Municipal Enforcement)
 1. Each food vendor must obtain
 1. Temporary or annual options available
 1. Includes insurance and health requirements
1. **Cross-Road Banner Permits** (Roads Department)
 1. Separate permit for each banner location
 1. Fees apply for each location
 1. Audrey to provide applications
1. **Visit Oakville Event Calendar Listing** (Marketing/Promotional)
 1. Online application
 1. Anna to provide link/form

Optional Services to Add to Permit:

- Hydro access (fees apply)
- Town stage rental (fees apply)
- Additional town services as needed

20. Fee Structure

Status:

- Detailed fee breakdown to be provided by Anna via email
- Will include:
 - Mandatory permit fees
 - Optional service fees (hydro, stage, etc.)
 - Cross-road banner fees
 - Any other applicable charges

Organizer Planning:

- Fee information needed for budget planning
- Optional services to be decided based on budget and sponsor opportunities

21. Questions and Clarifications Addressed

Greg Pace Questions:

Q: What time can amplified sound start per bylaw?

- A: Anna to confirm exact bylaw timing (7:00 AM or 8:00 AM), will provide in email
- Noise exemption will be granted through special event permit for 7:00 AM start

Q: Does town cover resident notification distribution costs?

- A: No, organizers responsible for notification distribution costs
- Note: City of Burlington covers this for their events, but Oakville does not

Greg Kowalczyk Questions:

Q: Is there a limit on number of vendors?

- A: Limited by physical park capacity and complexity management
- Recommendation to keep scalable for year one
- Final determination after site map review

Q: Can we access town hydro in the park?

- A: Yes, available as add-on service with fees
- Sails structure has existing hydro access
- Additional access can be arranged

Q: Are there park layout templates available?

- A: Town can provide blank park map
- Organizers to design layout based on their vision
- Town will review and provide recommendations

Q: Any advertising board permits needed?

- A: Cross-road banners require permits (applications to be provided)
- Community boards operated by BIAs, not town

Q: If construction affects park, can we go around fenced areas?

- A: Potentially yes, depending on construction scope
- To be determined once construction details known
- Collaborative problem-solving if needed

22. Information To Be Provided by Town (Via Email)

Anna Rookyard committed to providing comprehensive email package including:

Permit Requirements:

- Special event permit application details
- Insurance specifications (exact requirements)
- Certificate of insurance template/requirements

Fee Schedules:

- Mandatory permit fees
- Optional service fees (hydro, stage, etc.)
- Banner permit fees
- Complete fee breakdown

Regulatory Information:

- Noise bylaw details and exemption process
- Food vendor licensing requirements and process
- Halton Region public health requirements
- Tent and inflatable regulations
- Load-in/load-out guidelines

Applications and Forms:

- Visit Oakville event calendar application
- Blank park map for site planning
- Cross-road banner permit applications (from Audrey)

Planning Resources:

- Examples or guidelines for site maps
- Resident notification best practices

- Contact information for various departments

23. Key Contacts Established

Town of Oakville:

- **Anna Rookyard** - Special Event Coordinator (Primary Contact)
- **Audrey Basham** - Roads Team (Traffic/Route Contact)
- **Lisa** - (Supporting Role)

Event Organizers:

- **Greg Kowalczyk** - Lead Organizer
- **Greg Pace** - Organizer (Traffic plan and route details lead)
- **Charles** - Organizer

External Partners:

- **Kylie** - Bronte BIA Representative (Meeting scheduled for next week)
- **RaceKit Services** - Traffic control vendor

24. Outstanding Items for Future Discussion

To Be Determined:

1. Exact construction timeline and impact assessment
1. Final vendor count and site map layout
1. Specific hydro requirements and locations
1. Stage decision (town rental vs. sponsor vs. none)
1. Final insurance certificate details
1. Resident notification distribution method
1. Final route confirmation pending construction review

To Be Confirmed:

1. Noise bylaw exact timing (7:00 AM vs. 8:00 AM)
1. Construction impact on route and park
1. Final road closure requirements

1. Exact resident notification area boundaries
1. All fee amounts

25. Summary of Responsibilities

Event Organizers (TapeGeeks) Responsibilities:

- Submit revised race route map ✓ (Completed during meeting)
- Submit traffic control plan (Next week)
- Create and submit park site map
- Obtain event organizer insurance certificate
- Obtain insurance certificate from RaceKit Services
- Ensure all food vendors obtain business licenses
- Ensure all vendors meet insurance requirements
- Prepare and distribute resident notifications
- Apply for Visit Oakville event calendar listing
- Apply for cross-road banner permits (if desired)
- Meet with Bronte BIA (Scheduled for next week)
- Notify inflatable vendors of no-staking policy
- Make decisions on optional services (stage, hydro, etc.)

Town of Oakville Responsibilities:

- **Anna:** Send comprehensive information email (By end of week)
- **Audrey:** Review submitted route map
- **Audrey:** Assess construction impact on event
- **Audrey:** Review traffic control plan when submitted
- **Audrey:** Provide banner permit applications and fees
- **Audrey:** Confirm resident notification requirements
- **Anna/Lisa:** Review site map when submitted
- **Anna/Lisa:** Provide load-in/load-out guidelines
- **Town:** Notify Bronte BIA of event (Courtesy)
- **All:** Collaborate on solutions if construction impacts event

26. Timeline Summary

Timeframe	Action Items
During Meeting	Route map and spreadsheet submitted by Greg Pace
This Week (By Feb 7)	Anna sends comprehensive information email package
Next Week (Week of Feb 14)	

10) Traffic control plan submitted by RaceKit Services Meeting with Bronte BIA (Kylie)
Mid-February Audrey reviews route and traffic plan Audrey provides construction impact assessment Organizers create site map
Late February Organizers submit site map Insurance certificates obtained and submitted Vendor list finalized
End Feb/Early March Next coordination meeting Review all materials Address any outstanding issues
March 2026 Move into final permitting phase All permits finalized All requirements confirmed
Pre-Event Resident notifications distributed Final logistics confirmed
June 21, 2026 EVENT DAY

27. Meeting Tone and Outcomes

Overall Assessment:

- **Positive and Collaborative:** Town staff very supportive of event
- **Well-Organized:** Organizers have done significant advance planning
- **Proactive Communication:** Both sides committed to ongoing dialogue
- **Problem-Solving Approach:** Construction concerns addressed with collaborative mindset

Key Quotes:

- Anna: "This sounds fantastic" (regarding event vision)
- Anna: "This is in great shape, which is really great"
- Anna: "We want it to be successful, and we want it to be big and beautiful, but we also want it to be scalable"
- Audrey: "I'm hopeful that this shouldn't impact your event and your route"

Level of Support:

- Town clearly supportive of event proceeding
- Willing to work through challenges (construction concerns)
- Providing comprehensive resources and guidance
- Flexible on many operational decisions (stage, sound placement, etc.)

28. Risk Items and Mitigation

Identified Risks:

1. Construction at Coronation Park

- **Risk Level:** Medium (timing uncertain)
- **Mitigation:** Early review of construction plans, flexible route modifications if needed, collaborative problem-solving

- **Status:** Monitoring, updates to come

2. Noise Bylaw Compliance

- **Risk Level:** Low
- **Mitigation:** Noise exemption to be written into special event permit, proper sound placement
- **Status:** Process identified, to be formalized

3. Vendor Insurance/Licensing

- **Risk Level:** Medium
- **Mitigation:** Clear communication of requirements, early vendor engagement, guidance documents from town
- **Status:** Requirements documented, organizers to communicate to vendors

4. Resident Notification

- **Risk Level:** Low-Medium
- **Mitigation:** Clear notification requirements, town review of draft, adequate distribution time
- **Status:** Process outlined, timeline allows for proper distribution

5. First-Year Event Scaling

- **Risk Level:** Low
- **Mitigation:** Conservative planning, scalability focus, town guidance on optimal size
- **Status:** Acknowledged, recommendations provided

29. Success Factors

Factors Supporting Event Success:

1. **Strong Advance Planning:** Event team has been planning since before October 2025
1. **Early Coordination:** Meeting held 4.5 months before event date
1. **Professional Vendors:** Established traffic control vendor (RaceKit Services)
1. **Town Support:** Enthusiastic support from special events and roads teams
1. **Community Partnerships:** Engagement with Bronte BIA already initiated
1. **Realistic Timeline:** Adequate time for permitting and preparation
1. **Flexible Approach:** Willingness to adapt plans as needed (route, vendors, etc.)
1. **Clear Communication:** Both sides committed to ongoing dialogue and documentation

30. Next Meeting Preparation

For Organizers to Prepare:

- Review comprehensive email from Anna
- Complete site map draft
- Begin vendor insurance/licensing communications
- Confirm traffic control plan timeline with RaceKit
- Make preliminary decisions on optional services
- Compile questions from email review

For Town to Prepare:

- Construction impact assessment
- Route review findings
- Traffic control plan review (if submitted)
- Banner permit information compiled
- Any policy clarifications needed

Meeting Adjourned

End Time: Approximately 44 minutes after start

Next Meeting: Late February or Early March 2026 (Date TBD)

Document Control

Prepared By: Meeting Minutes Transcription

Date Prepared: February 4, 2026

Distribution: Event Organizers (Greg Kowalczyk, Charles, Greg Pace), Town of Oakville Staff (Anna Rookyard, Audrey Basham, Lisa)

Status: Draft - Subject to Review and Approval

Appendices

Appendix A: Acronyms and Terms

- **BIA** - Business Improvement Area
- **MES** - Municipal Enforcement Services
- **TSSA** - Technical Standards and Safety Authority
- **CGL** - Commercial General Liability

Appendix B: Key Locations Referenced

- Bronte Heritage Waterfront Park
- Coronation Park
- Ontario Street
- Marine Drive
- Lakeshore Road
- Jones Street
- Nelson Street
- Belvedere Avenue

Appendix C: Key Documents Referenced/To Be Provided

- Revised race route map (submitted during meeting)
- Detailed spreadsheet of route (submitted during meeting)
- Traffic control plan (pending - next week)
- Site map (to be created by organizers)
- Comprehensive information email (pending from Anna)
- Various permit applications
- Insurance certificate templates

END OF MINUTES
